STRATEGIC DECISION-MAKING FILTERS

Taken together, the **Mission, Vision, Values,** and **Competitive Advantages** comprise our **Strategic Decision-Making Filter**. A Strategic Decision-Making Filter provides greater consistency and intentionality in strategic decision making. If we decide to disregard one of the criteria, we will do so knowingly and collectively.

When we, board or staff, are considering a response to an opportunity or challenge, either within or outside the scope of the plan, we commit to considering the following criteria:

Threshold Filters

1. Is it consistent with our **MISSION** (including Geographic Service Area)? Or can the opportunity be modified to be in keeping with the Mission?
2. Does it bring us closer to achieving our **VISION**?
3. How is the decision informed by our **VALUES**?
4. Does it leverage our **COMPETITIVE ADVANTAGES**?
5. Does it have a **POSITIVE BUSINESS CASE** where revenues exceed costs?
6. Do we have the **CAPACITY** to respond? (People, Time, Knowledge, Tools, Vision, Money)
 - a. Or do we have a **reasonable plan to build capacity** to respond? (*Staff or Board time, knowledge/skills, or financial resources*)
 - b. Can meet the goals of the new work **without overtaxing our capacity or taking away resources** from other commitments?

Other Considerations FOR REVIEW

- **SUSTAINABLE:** After the initial investment, can we continue to **sustain or grow the program** in the future?
- **QUALITY:** Can we execute the program at a **level of quality** that contributes positively to our organization's reputation?
- **IMPACT:** Does the program create a **significant community impact**?

SUPPORT & ACCOUNTABILITY

As board members of PCCA, we recognize that we have a solemn responsibility for advancing the organization's MISSION. This strategic plan outlines our agreement about the VISION we wish to achieve and the strategic actions that need to be done to advance the work. In support of one another, we will help each other to accomplish this work by:

- Developing a committee or taskforce structure that supports the work.
- Creating a board report out mechanism whereby the committees can demonstrate progress and ask for board support.
- Acknowledge the Executive Committee's role in managing the committees work toward the achievement of the plan.
- As a board member, I will be a **CHAMPION** of these **GOALS** by:
 - Calling and/or attending committee or task force meetings
 - Checking in with staff about the appropriateness of objectives and timelines before taking action
 - Holding myself and other committee members accountable for contributions toward objectives
 - Asking for advice or support when needed
- Sitting on a committee or task force and executing the work that I am asked to do in a timely manner
